REGENERATIVE AGRICULTURE NETWORK TASMANIA

is delighted to bring the
**2024 Thriving in Agriculture: Land, People and Profit Conference to the
Tailrace Centre in Launceston on the
10th and 11th of July, 2024.**

This event is more than just a conference – it is very much a ‘How-To’ guide to resilient, profitable, productive, joyful farming. It will focus on practical solutions on how to rapidly build landscape health, functionality, biodiversity and soil carbon sequestration – all while enhancing profitability and farmer well-being.

Globally renowned speakers who have effectively implemented these practices on their farms and in their work will share their practical insights grounded in real-world experiences. Farmer case studies, alongside cutting-edge research and trials, will be shared during the event. Expect a highly interactive conference with a strong emphasis on fostering a supportive community of practice to assist farmers in their ongoing endeavours.

The Conference is also the opportunity for trade stalls to showcase proven or innovative products, technologies and services that will have a positive impact on all farming fronts – the environmental, economic and social.

This is your opportunity to engage with industry leaders, farmers, policymakers, and stakeholders committed to driving positive change in agriculture.

OUR OBJECTIVE

For attendees to go home with a clear understanding of their next steps toward accomplishing their landscape and business objectives.

OUR AUDIENCE

- Farmers of all scales and enterprises
 - Annual croppers – vegetable, grain growers and more
 - Graziers – beef, sheep and other stock
 - Perennial croppers - orchardists, viticulturists, botanicals and more
 - Free range pig and poultry producers
- Students
 - University
 - Vocational programs eg Tafe
 - High school
 - Farm schools
- Advisors and consultants
- Educators and trainers

Trade Stall Exhibitors will reach an engaged audience for new and existing products and services, repositioning and/or increasing brand awareness, building relationships with the farming and support community, and more.

Exhibitor opportunities are outlined on the pages to follow.

We look forward to working with you!
